General Obligation Refunding Bonds

November 21, 2013

The District received authorization at an election held on November 5, 2002, by more than 55% of the votes cast by eligible voters, to issue General Obligation bonds in an aggregate principal amount not to exceed \$225 million. On July 19, 2005 the District issued the Election of 2002, Series 2005 General Obligation Bonds. The Bonds were sold with optional redemptions, which allows the District to call the bonds earlier than their stated maturities for economic reasons, in order to take advantage of lower interest rate environments.

Since early 2013, the interest rate environment has been very low. This environment allows the District an opportunity to issue refunding bonds by calling the existing bonds and issuing new bonds at a lower interest rate reducing debt service and creating tax savings to the District taxpayers. Preliminary numbers indicate that a refunding of a portion of the Bonds produce savings on a present value basis of approximately 5.1 percent of the principal amount of the bonds. This equates to approximately \$172,000 a year on a future value basis or over \$1.7 million over the life of the bonds. Three percent is the industry benchmark for minimum savings for a refunding.

Bonds authenticated during the period between ~~the 15th~~ the calendar month immediately preceding an Interest Payment Date (the "Record Date") and the close of business on that Interest Payment Date will bear interest from that Interest Payment Date. Any other Bond will bear interest from the Interest Payment Date immediately preceding the date of its authentication. If, at the time of authentication of any Bond, interest is then in default on outstanding Bonds, such Bond will bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment thereon.

Payment of interest on any Bond on each Interest Payment Date (or on the following business day, if the Interest Payment Date does not fall on a business day) will be made to the person appearing on the registration books of the Paying Agent as the registered owner thereof as of the preceding Record Date, such interest to be paid by check or draft mailed to such owner at such owner's address as it appears on such registration books or at such other address as the owner may have filed with the Paying Agent for that purpose on or before the Record Date. The owner of an aggregate principal amount of \$1,000,000 or more of Bonds may request in writing to the Paying Agent that such owner be paid interest by wire transfer to the bank and account number on file with the Paying Agent as of the applicable Record Date.

Principal will be payable at maturity, as set forth on the inside cover page, or upon redemption prior to maturity, upon surrender of Bonds at such office of the Paying Agent as the Paying Agent shall designate. The interest, principal and premiums, if any, on the Bonds will be payable in lawful money of the United States of America from moneys on deposit in the interest and sinking fund of the District (the "Interest and Sinking Fund") within the County Treasury, consisting ~~of~~ ~~and~~ ~~valore~~ property taxes collected and held by the Director of Finance of the County (the "Director of Finance"), together with any net premium and accrued interest received upon issuance of the Bonds.

So long as all outstanding Bonds are held in book-entry form and registered in the name of a securities depository or its nominee, all payments of principal of, premium, if any, and interest on the Bonds and all notices with respect to such Bonds will be made and given, respectively, to such securities depository or its nominee and not

the District or the escrow fund established for such purpose. All Bonds redeemed will be cancelled forthwith by the Paying Agent and will not be reissued.

Right to Rescind Notice The District may rescind any optional redemption and notice thereof for any reason on any date prior to the date fixed for redemption by causing written notice of the rescission to be given to the owners of the Bonds so called for redemption. Any optional redemption and notice thereof will be rescinded if for any reason on the date fixed for redemption moneys are not available in the Interest and Sinking Fund or otherwise held in trust for such purpose in an amount sufficient to pay in full on said date the principal of, interest, and any premium due on the Bonds called for redemption. Notice of rescission of redemption will be given in the same manner in which notice of redemption was originally given. The actual receipt by the Owner of any Bond of notice of such rescission will not be a condition precedent to rescission, and failure to receive such notice or any defect in such notice will not affect the validity of the rescission.

Conditional Notice. Any notice of optional redemption may be conditioned on any fact or circumstance stated therein, and if such condition will not have been satisfied on or prior to the redemption date stated in such notice, said notice will be of no force and effect on and as of the stated redemption date, the redemption will be cancelled, and the District will not be required to redeem the Bonds that were the subject of the notice. The Paying Agent will give notice of such cancellation and the reason therefor in the same manner in which notice of redemption was originally given. The actual receipt by the Owner of any Bond of notice of such cancellation will not be a condition precedent to cancellation, and failure to receive such notice or any defect in such notice will not affect the validity of the cancellation.

SECURITY AND SOURCE OF PAYMENT FOR THE BONDS

General

In order to provide sufficient funds for repayment of principal and interest when due on the Bonds, the Board of Supervisors of the County (the “Board of Supervisors”) is empowered and is obligated by law to levy valorem taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates). Such taxes are in addition to other taxes levied upon property within the District, including the countywide tax of 1% of taxable value. When collected, the tax revenues will be deposited by the County in the District’s Interest and Sinking Fund, which is required by law to be maintained by the County and to be used solely for the payment of bonds of the District.

assessment roll containing State-assessed property and property (real or personal) for which there is a lien on real property sufficient, in the opinion of the county assessor, to secure payment of the taxes. All other property is "unsecured," and is assessed on the "unsecured roll." Secured property assessed by the State Board of Equalization is commonly identified for taxation purposes as "utility" property.

The greater the assessed value of taxable property in the District, the lower the tax rate necessary to

County. The transfer of property located and taxed in the District to a State-assessed utility will have the opposite effect, generally reducing the assessed value in the District as the value is shared among the other jurisdictions in the County. The District is unable to predict future transfers of State-assessed property in the District and the County, the impact of such transfers on its utility property tax revenues, or whether future legislation or litigation may affect ownership of utility assets, the State's methods of assessing utility property, or the method by which tax revenues of utility property is allocated to local taxing agencies, including the District.

Appeals of Assessed Valuation State law affords an appeal procedure to taxpayers who disagree with the assessed value of their taxable property. Taxpayers may request a reduction in assessment directly from the County Assessor (the "Assessor"), who may grant or refuse the request, and may appeal an assessment directly to the Sacramento County Board of Equalization, which rules on appealed assessments whether or not settled by the Assessor. The Assessor is also independently authorized to reduce the assessed value of any taxable property upon a determination that the market value has declined below the then-current assessment, whether or not appealed by the taxpayer.

The District can make no predictions as to the changes in assessed values that might result from pending or future appeals by taxpayers. Any reduction in aggregate District assessed valuation due to appeals, as with any reduction in assessed valuation due to other causes, will cause the tax rate levied to repay the Bonds to increase accordingly, so that the fixed debt service on the Bonds (and other outstanding bonds) may be paid. Proposition 8, adopted in 1978, amended Article XIII A of the State Constitution and added Section 51(a)(2) to the Revenue and Tax Code. Proposition 8 permits the County Assessor to reduce the full cash value of real property for property tax purposes to reflect substantial damages, destruction or other factors causing a decline in value. The District can not predict how changing economic conditions may affect real property values in the future, and can not predict how the County Assessor may respond to such conditions, or whether the County Assessor would reduce the full cash value of real property pursuant to Proposition 8 as discussed above. Declines in the full cash value of real property, including those caused by Proposition 8 reductions, would cause an increase in the tax rate. The District can not predict if or when such increases in the tax rate may occur. Any refund of paid taxes triggered by a successful assessment appeal will be debited by the County Director of Finance against all taxing agencies who received tax revenues, including the District.

Tax Levies, Collections and Delinquencies

A 10% penalty attaches to any delinquent payment for secured roll taxes. In addition, property on the secured roll with respect to which taxes are delinquent becomes tax-defaulted. Such property may thereafter be redeemed by payment of the delinquent taxes and the delinquency penalty, plus a redemption penalty to the time of redemption. If taxes are unpaid for a period of five years or more, the property is subject to auction sale by the Director of Finance.

In the case of unsecured property taxes, a 10% penalty attaches to delinquent taxes on property on the unsecured roll, and an additional penalty of 1.5% per month begins to accrue beginning November 1st of the fiscal year, and a lien is recorded against the assessee. The taxing authority has four ways of collecting unsecured personal property taxes: (a) a civil action against the taxpayer; (b) filing a certificate in the office of the County Clerk specifying certain facts (e)-254.7(3-466.3(o)-5.9(5.68 Tm [(C)4.4(o)-5.9(u))-12.8(x).-906.5(T)-15.4(h)6.0(e)-459.5(ta

Largest Taxpayers

The 20 largest taxpayers in the District are shown below, ranked by aggregate secured assessed value of taxable property in fiscal year 2013-14.

The more property (by assessed value) owned by a single taxpayer, the more tax collections are exposed to weakness in the taxpayer's financial situation and ability or willingness to pay property taxes. In 2013-14, no single taxpayer owned more than 0.82% of the total taxable property in the District.

of the Bonds is the first price at which a substantial amount of such maturity of the Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Bonds accrues daily over the term to maturity of such Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Bonds. Beneficial owners of the Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Bonds with original issue discount, including the treatment of beneficial owners who do not purchase such Bonds in the original offering to the public at the first price at which a substantial amount of such Bonds is sold to the public.

Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) ("Premium Bonds") will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a beneficial owner's basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such beneficial owner. Beneficial owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

enforcement thereof by the IRS. The District has covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Bonds ends with the issuance of the Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the District or the beneficial owners regarding the tax-exempt status of the Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the District and its appointed counsel, including the beneficial owners, would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the District legitimately disagrees may not be practicable. Any action of the Internal Revenue Service, including but not limited to selection of the Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues, may affect the market price for, or the marketability of, the Bonds, and may cause the District or the beneficial owners to incur significant expense.

Under provisions of the Financial Code of the State, the Bonds are legal investments for commercial banks in the State to the extent that the Bonds, in the informed opinion of the bank, are prudent for the investment of funds of its depositors, and, under provisions of the Government Code, the Bonds are eligible securities for deposits of public moneys in the State.

DISTRICT FINANCIAL AND OPERATING INFORMATION

The information in this Appendix concerning the operations of the District, the District's finances, and State funding of education, is provided as supplementary information only, and it should not be inferred from the inclusion of this information in this Official Statement that the principal of or interest on the Bonds is payable from the general fund of the District or from State revenues. The Bonds are payable from the proceeds of a ~~property~~ ^{property} tax approved by the voters of the District pursuant to all applicable laws and Constitutional requirements, and required to be levied by the County on property within the District in an amount sufficient for the timely payment of principal of and interest on the Bonds. See "SECURITY AND SOURCE OF PAYMENT FOR THE BONDS" in the Official Statement.

FINANCIAL AND DEMOGRAPHIC INFORMATION

General

The Sacramento City Unified School District (the "District"), located in Sacramento County, California (the "County"), is the 12th largest school district in the State of California (the "State") as measured by student enrollment. The District provides educational services to the residents in and around the City of Sacramento (the "City"), the State capital. The District operates under the jurisdiction of the Superintendent of Schools of

District Revenues

Under the education code of the State of California (the "Education Code") Section 42238 and following, each school district is determined to have a target funding level: a "base revenue limit" per student multiplied by the district's student enrollment measured in units of average daily attendance ("A.D.A.").

The base revenue limit is calculated from the district's prior-year funding level, as adjusted for a number of factors, such as inflation, special or increased instructional needs and costs, employee retirement costs, especially low enrollment, increased pupil transportation costs, etc. Generally, the amount of State funding allocated to each school district is the amount needed to reach that district's base revenue limit after taking into account certain other revenues, in particular, locally generated property taxes. This is referred to as State "equalization aid." To the extent local tax revenues increase due to growth in local property assessed valuation, the additional revenue is offset by a decline in the State's contribution.

The District's undeficit base revenue limit per A.D.A. is projected to be \$7,643 for fiscal year 2013-14, compared to an amount of \$6,707 for 2012-13. However, the amount received is less; in recent years, the State has exercised its authority to apply a "deficit factor." The State may apply deficit factors to revenue limits and categorical programs when the appropriation to the State School Fund or any categorical program is insufficient based on the funding formulas specified by law. For fiscal year 2013-14, the deficit factor is ____%.

The District's recent A.D.A. history for grades K-12, including special education, is set forth in the table below:

The principal component of local revenues is the District's property tax revenues; that is, the District's share of the local 1% property tax, received pursuant to Sections 75 and following and Sections 95 and following of

For basic aid districts, the State will not make the district whole for loss of tax increment to the redevelopment agency unless and only to the extent that such loss reduces the district's local property tax revenues below the district's revenue limit. In addition, the basic aid district may be entitled to a pass-through payment from the redevelopment agency: for any redevelopment project plan adopted or amended after 1993, a basic aid district is entitled to its pre-plan share of taxes collected district-wide, plus the lesser of (i) property tax revenues from the incremental growth in assessed valuation in that part of the district not included in the project area, and (ii) property tax revenues on 80% of the incremental growth in assessed valuation within the project area. For any redevelopment plan adopted before 1994 and not subsequently amended, either a revenue limit district or a basic aid district may continue to receive pass-through payments at the level negotiated with the redevelopment agency instead of the statutory pass-through; such payments do not count against the district's revenue limit for State aid purposes, but must generally be used for capital facilities improvements. Although there are redevelopment agencies within the District's territory, the District does not receive any tax-increment pass-through payments.

The 2013-14 State budget (the "2013-14 State Budget") dissolved redevelopment agencies and community development agencies, as of February 1, 2013, and designates successor agencies to wind down the affairs of the dissolved redevelopment agencies. At this time the District cannot predict what effect the dissolution of redevelopment agencies will have on the District's property tax receipts. For more information on the dissolution of redevelopment agencies, see "—State Funding of Education; State Budget Provisions Dissolution of Redevelopment Agencies" below.

District Expenditures

The largest part of each school district's general fund budget is used to pay salaries and benefits of certificated (credentialed teaching) and classified (non-instructional) employees. Changes in salary and benefit expenditures from year to year are generally based on changes in staffing levels, negotiated salary increases, and the overall cost of employee benefits.

In its fiscal year 2013-14 budget, the District estimates that it will expend approximately \$321.1 million in salaries and benefits, or approximately 83.4% of its general fund expenditures. This amount represents an increase of 3.4% from the \$310.5 million the District expended in fiscal year 2012-13.

Labor Relations. The District currently employs 2,403 full-time-equivalent ("FTE") certificated employees, 1,718 FTE classified employees, and 22 FTE management and supervisory/other employees. Certificated and classified employees are represented for collective bargaining purposes as shown below:

General Obligation Bonds On October 19, 1999, voters in the District approved a bond measure authorizing the District to issue \$195,000,000 in general obligation bonds, colloquially known as "Measure E"

Certificates of Participation On April 18, 2001, Certificates of Participation ("COPs") of \$43,580,000 were issued with fixed interest rates ranging from 4.1% to 5.0% maturing on March 1, 2031, for the advance refunding of Series 1999C COPs (with a remaining principal obligation of \$29,590,000) and to provide additional capital for construction projects. With the payment of \$30,000,000 to the Escrow Agent to advance refund and defease the District's 1999C COPs, the 1999C COPs are considered to be defeased, and the obligations have been removed from the District's financial statements.

On July 11, 2002, the District issued \$58,000,000 of Variable Rate COPs for the advance refunding of 1998 Series A COPs (with a remaining principal amount of \$13,750,000) and 1999 Series D COPs (with a remaining obligation of \$15,480,000) and to provide additional capital for construction projects. appropriation found in statute, (ii) mandated by the State Constitution (such as appropriations for salaries of elected State officers), or (iii) mandated by federal law (such as payments to State workers at no more than minimum wage). The State Controller has consistently stated that basic State funding for schools is continuously appropriated by statute, but that special and categorical funds may not be appropriated without an adopted budget. The State

The 2013-14 State Budget projects that budgetary debt, which was approximately \$35 billion at the end of fiscal year 2010-11 and \$27 billion at the end of fiscal year 2012-13, will be reduced to less than \$5 billion by the end of fiscal year 2016-17. Although the 2013-14 State Budget is a balanced budget, the 2013-14 State Budget notes that substantial risks, uncertainties and liabilities remain, including the pace of the economic recovery, the State's needs to address its other significant liabilities and the federal budget for federal fiscal year 2014.

With the passage of Proposition 30 in November 2012, The Schools and Local Public Safety Protection Act

- x Special Education Funding Reform The 2013-14 State Budget includes several consolidations for various special education programs in an effort to simplify special education finance and provide Special Education Local Plan Areas with additional funding flexibility.

With respect to the implementation of Proposition 39 (The California Clean Energy Jobs Act), which was approved at the November 6, 2012 election, the 2013-14 State Budget allocates \$381 million in Proposition 98 general funds to K-12 local education agencies to support energy efficiency projects approved by the California Energy Commission. Of this amount, 85% will be distributed based on A.D.A. and 15% will be distributed based on free and reduced-price meal eligibility. The 2013-14 State Budget establishes minimum grant levels of \$15,000 and \$50,000 for small and exceptionally small local education agencies and allows these agencies to receive an advance on a future grant allocation. Other local education agencies would receive the greater of \$100,000 or their weighted distribution amount. The 2013-14 State Budget also provides \$28 million for interest-free revolving loans to assist eligible energy projects at schools and community colleges.

The complete 2013-14 State Budget is available from the California Department of Finance website at www.dof.ca.gov. The District can take no responsibility for the continued accuracy of this internet address or for the accuracy, completeness or timeliness of information posted therein, and such information is not incorporated herein by such reference.

Local Control Funding Formula. The Local Control Funding Formula replaces the existing revenue limit funding system and most categorical programs, and distributes combined resources to school districts through a base funding grant ("Base Grant") per unit of A.D.A. with additional supplemental funding allocated to local educational agencies based on their proportion of English language learners, students from low-income families and foster youth, beginning in fiscal year 2013-14. The Local Control Funding Formula has an eight year implementation program to incrementally close the gap between actual funding and the target level of funding, as described below. The Local Control Funding Formula includes the following components:

- x A Base Grant for each local education agency, equivalent to \$7,643 per unit of A.D.A. in fiscal year 2013-14. Such Base Grant per unit of A.D.A., adjusted by grade span variation and to be adjusted annually for

All school districts, county offices of education and charter schools will be required to develop and adopt local control and accountability plans, which will identify local goals in areas that are priorities for the State, including pupil achievement, parent engagement and school climate. Such local control and accountability plans are to be developed in accordance with a template to be provided by the State Board of Education. County superintendents will review and provide support to the school districts under their jurisdiction, while the Superintendent of Public Instruction will perform a corresponding role for county offices of education. In addition the 2013-14 State Budget creates the California Collaborative for Education Excellence (the "Collaborative") to advise and assist local education agencies in achieving the goals identified in their plans. For local education agencies that continue to struggle in meeting their goals, and when the Collaborative indicates that additional intervention is needed, the Superintendent of Public Instruction would have authority to make changes to a local education agency's plan. For charter schools, the charter authorizer will be required to consider revocation of a charter if the Collaborative finds that the inadequate performance is persistent and acute as to warrant revocation.

State Cash Management Legislation On March 1, 2010, the Governor signed a bill (and on March 4, 2010, subsequently signed a clean-up bill to clarify certain provisions of such bill) to provide additional cash management flexibility to State fiscal officials (the "Cash Management Bill"). The Cash Management Bill authorized deferral of certain payments during the 2010-11 fiscal year for school districts (not to exceed \$2.5 billion in the aggregate at any one time, and a maximum of three deferrals during the fiscal year). The Cash Management Bill permitted deferrals of payments to K-12 schools in July 2010, October 2010 and March 2011, for not to exceed 60, 90 and 30 days, respectively, but depending on actual cash flow conditions at the time, and allowed the Controller, Treasurer and Director of Finance to either accelerate or delay the deferrals up to 30 days or reduce the amounts deferred. The Cash Management Bill also permitted the State to move a deferral to the prior month or to a subsequent month upon 30 days written notice by the State Department of Finance to the Legislative Budget Committee, except that the Cash Management Bill provided that the deferral for March 2011 was required to be paid prior to April 30. The Cash Management Bill provided for exceptions to the deferrals for school districts that could demonstrate hardship. The Cash Management Bill made it necessary for many school districts (and other affected local agencies) to increase the size and/or frequency of their cash flow borrowings during fiscal year 2010-11. Similar legislation was enacted for fiscal year 2011-12. The legislation, however, sets forth a specific deferral plan for K-12 education payments. In the legislation, the July 2011 and August 2011 K-12 payments of \$1.4 billion and the October 2011 payment of \$2.4 billion were deferred. In September 2011, \$700 million of the July deferral was paid, in January 2012, \$4.5 billion from the remaining July, August and October deferrals was paid, and in March 2012, \$1.4 billion was deferred and paid in April 2012.

Future Budgets and Budgetary Actions The District cannot predict what actions will be taken in the future by the State Legislature and the Governor to address changing State revenues and expenditures or the impact

deprive the State of fuel tax revenues to pay debt service on most State bonds for transportation projects, reducing the amount of State general fund resources available for other purposes, including education.

Prior to the passage of Proposition 22, the State invoked Proposition 1A to divert \$1.935 billion in local property tax revenues in 2009-10 from cities, counties, and special districts to the State to offset State general fund spending for education and other programs, and included another diversion in the adopted 2009-10 State budget of \$1.7 billion in local property tax revenues from local redevelopment agencies, which local redevelopment agencies have now been dissolved. Redevelopment agencies had sued the State over this latter diversion. However, the lawsuit was decided against the California Redevelopment Association on May 1, 2010. Because Proposition 22 reduces the State's authority to use or shift certain revenue sources, fees and taxes for State general fund purposes, the State will have to take other actions to balance its budget in some years—such as reducing State spending or increasing State taxes, and school and community college districts that receive Proposition 98 or other funding from the State will be more directly dependent upon the State's general fund.

Dissolution of Redevelopment Agencies Under California law, a city or county could, and did, prior to California legislation dissolving redevelopment agencies as described below, create a redevelopment agency in territory within one or more school districts. Upon formation of a "project area" of a redevelopment agency, most property tax revenues attributable to the growth in assessed value of taxable property within the project area (known as "tax increment") belong to the redevelopment agency, causing a loss of general fund tax revenues (relating to the 1% countywide general fund levy) to other local taxing agencies, including school districts, from that time forward. However, special ad valorem property taxes (in excess of the 1% general fund levy) collected for payment of debt service on school bonds are based on assessed valuation before reduction for redevelopment increment and such special ad valorem property taxes are not affected or diverted by the operation of a redevelopment agency project area.

As to operating revenues, any loss of local property taxes that contribute to the revenue limit target of a revenue limit district is made up by an increase in State equalization aid, until the base revenue limit is reached. "Pass-through" payments of local tax revenues required by law to be paid to the school district by a local redevelopment agency will count toward the revenue limit, except for any portion dedicated to capital facilities or deferred maintenance.

The adopted State budget for fiscal 2011-12, as signed by the Governor on June 30, 2011, included trailer bill Assembly Bill No. 26 (First Extraordinary Session) ("AB1X 26"), which the Governor signed on June 29, 2011. AB1X 26 suspended most redevelopment agency activities and prohibited redevelopment agencies from incurring indebtedness, making loans or grants, or entering into contracts after June 29, 2011. AB1X 26 dissolved all redevelopment agencies in existence and designated "successor agencies" and "oversight boards" to satisfy "enforceable obligations" of the former redevelopment agencies and administer dissolution and wind down of the former redevelopment agencies. Assembly Bill No. AB 1484 ("AB1X 1484"), signed into law by the Governor on June 27, 2012, modified certain provisions enacted under AB1X 26, and together with AB1X 26, form the procedural framework for the dissolution of the redevelopment agencies.

Commencing February 1, 2012, property taxes that would have been allocated to each redevelopment agency if the agencies had not been dissolved will instead be deposited in a "redevelopment property tax trust fund" created for each former redevelopment agency by the related county auditor-controller and held and administered by the related county auditor-controller as provided in Part 1.85 (commencing with Section 34170) of Division 24 of the State Health and Safety Code (the "Health and Safety Code"). The Health and Safety Code generally requires each county auditor-controller, on May 16, 2012 and June 1, 2012 and each January 2 and June 1 thereafter, to apply amounts in a related redevelopment property tax trust fund, after deduction of the county auditor-controller's administrative costs, in the following order of priority:

- x To pay pass-through payments to affected taxing entities in the amounts that would have been owed had the former redevelopment agency not been dissolved; provided, however, that if a successor agency determines that insufficient funds will be available to make payments on the recognized obligation payment schedule and the county auditor-controller and Controller verify such determination, pass-through payments that had previously been subordinated to debt service may be reduced;

- x To the former redevelopment agency's successor agency for payments listed on the successor agency's recognized obligation payment schedule for the ensuing six-month period;
- x To the former redevelopment agency's successor agency for payment of administrative costs; and
- x Any remaining balance to school entities and local taxing agencies.

The District projects it will receive approximately \$1,360,163 in pass-through payments in fiscal year 2013-14, the same amount it received in fiscal year 2012-13.

District Revenues

The 2013-14 State Budget replaces the current K-12 finance system, with a new Local Control Funding Formula (the "LCFF"). The LCFF creates base, supplemental and concentration grants as the new general purpose entitlement to replace most existing funding streams, including the State aid portion of the revenue limit and most State categorical programs from prior years. The 2013-14 State Budget provides an additional \$2.1 billion of funding to school districts and charter schools to support the first-year implementation of the LCFF. Until full implementation, however, school districts will receive roughly the same amount of funding they received in 2012-13 plus an additional amount each year to bridge the gap between current funding levels and the new LCFF target levels. The 2013-14 State Budget projects the time frame for full implementation of the LCFF to be eight years. For more information on the LCFF, see "STATE BUDGET PROCESS; STATE FUNDING OF EDUCATION – Local Control Funding Formula" above.

The California Department of Education (the "CDE") cannot immediately determine how much a school district is entitled to receive under the LCFF because funding is based on current year attendance data not known until the end of the fiscal year, and because the CDE must reprogram its apportionment systems to reflect the new formula calculations.

However, because the greater part of a school district's funding is based on what the school received in fiscal year 2012-13, the CDE will apportion funds during the advance principal apportionment and first principal apportionment periods based on fiscal year 2012-13 funding, and according to the fiscal year 2012-13 model (not the LCFF), plus a portion of the \$2.1 billion appropriated to begin implementation of the provisions of the LCFF. The CDE has indicated that the second principal apportionment will be based on the LCFF. The fiscal

The District's 2013-14 total base revenue limit per A.D.A. is budgeted to be \$7,643, compared to \$6,707 for 2012-13. However, the amount received is less; in recent years, the State has exercised its authority to apply a "deficit factor." The state may apply deficit factors to revenue limits and categorical programs when the appropriation to the State School Fund or any categorical program is insufficient based on the funding formulas specified by law.

SCHOOL DISTRICT BUDGET PROCEDURES AND REQUIREMENTS

District Budget Process and County Review

State law requires school districts to maintain a balanced budget in each fiscal year. The State Department of Education imposes a uniform budgeting and accounting format for school districts.

Under current law, a school district governing board must adopt and file with the county superintendent of

Accounting Practices

seismic upgrades to property. These amendments have resulted in marginal reductions in the property tax revenues of the District.

Both the State Supreme Court and the United States Supreme Court have upheld the validity of Article XIII A.

Article XIII C and Article XIII D of the California Constitution . On November 5, 1996, the voters of the State approved Proposition 218, the so-called "Right to Vote on Taxes Act." Proposition 218 added Articles XIII C and XIII D to the State Constitution, which contain a number of provisions affecting the ability of local agencies, including school districts, to levy and collect both existing and future taxes, assessments, fees and charges. Among other things, Article XIII C establishes that every tax is either a "general tax" (imposed for general governmental purposes) or a "special tax" (imposed for specific purposes); prohibits special purpose government agencies such as school districts from levying general taxes; and prohibits any local agency from imposing, extending or increasing any special tax beyond its maximum authorized rate without a two-thirds vote. Article XIII C also provides that no tax may be assessed on property other than ~~the~~ ^{the} ~~valore~~ ^{valore} property taxes imposed in accordance with Articles XIII and XIII A of the State Constitution and special taxes approved by a two-thirds vote under Article XIII A, Section 4.

requirement. State laws that conflict with Proposition 26, unless they are approved again by two-thirds of each house of the Legislature, are repealed effective November 2011.

Expenditures and Appropriations

Article XIII B of the California Constitution. In addition to the limits Article XIII A imposes on property taxes that may be collected by local governments, certain other revenues of the State and local governments are subject to an annual "appropriations limit" or "Gann Limit" imposed by Article XIII B of the State Constitution, which effectively limits the amount of such revenues that government entities are permitted to spend. Article XIII B, approved by the voters in June 1979, was modified substantially by Proposition 111 in 1990. The appropriations limit of each government entity applies to "proceeds of taxes" which consist of revenues
