First Draft LCA 2017-20

May 4, 2017

### I. OVERVIEW / HISTORY

In July 2013, the state Legislature approved a new funding system for all California public schools. This new funding system, Local Control Funding Formula (LCFF), requires that every Local Education Agency write a Local Control and Accountability Plan (LCAP) 2016-17 school year represents the third year of LCFF implementation. The current new LCAP template is designed by the California State Board of Education to be a static three year plan, representing the years 2017-2020.

### II. DRIVING GOVERNANCE

The Local Control Funding Formula (LCFF) seeks to ensure continuous improvement in the performance of schools across the state's eight priorities, plus priorities identified locally. The eight priorities include student achievement, student engagement, school climate, parent involvement, provision of basic services, curriculum access, and implementation of the California Standards.
