Comment:

Dear Sacramento Unified School District Superintendent and Board Members:

This letter is in response to the upcoming Board Members Meeting scheduled to discuss

COVID-19 vaccines and masking for all students 12 years and older in order to be able to participate in in-person education within the Sacramento City Unified School District (SCUSD).

As a resident of Sacramento County, I object, on a legal, scientific, and moral basis, to such a proposed COVID-19 vaccine requirement, and ask SCUSD to reject this proposed resolution immediately.

California Health & Safety Codes: First and foremost, SCUSD does not have the legal

Accordingly, any unilateral COVID-19 mandate that SCUSD purports to impose on its

students and employees without all necessary factual and legal information

is illegal under California law and is also unconstitutional on its face.

Emergency Use Authorization and Liability: Second, while neither CDPH nor our state

legislature has mandated any COVID-19 vaccine for public or private school attendance,

neither authority can do so while the vaccines are still under emergency use

authorization. 21 U.S.C. § 360-bbb-3. This EUA statute explicitly states that anyone to

whom the vaccine is administered shall be held liable for any injury or death

caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

death caused by the vaccine, unless the vaccine is used in accordance with the

terms of the EUA. 21 U.S.C. § 360-bbb-3(d). This statute also states that

anyone who administers a vaccine under an EUA shall be held liable for any injury or

transmission onto otherwise perfectly healthy children.

At this point, those who are vaccinated have presumably protected themselves against severe COVID or death. Those who have made the choice not to get vaccinated are no different from those who are vaccinated, other than if they get the disease, they risk possibly getting sicker than those who are vaccinated who get COVID. As numerous studies indicate, and public health authorities acknowledge, children are at little risk of developing severe COVID-19.

Accordingly, requiring any COVID-19 vaccine, especially among student populations,

Religion – Free exercise and enjoyment of religion without discrimination or preference are guaranteed Equal Protection – that a state may not “deny to any person within its jurisdiction the

equal protection of the laws.”

Name Gregory Pruden

Comment: My name is Gregory Pruden and I am the parent of a 1st grader. I urge the board to immediately end the mask mandate and adopt a policy of encouragement, not force. Two years later and data are clear that children experience the lowest risk of severe illness or death from COVID-19. Their education has been interrupted, delayed, and stymied. Our choices as a community over the past two years, while noble in the beginning, have weakened equity efforts and caused severe learning loss. We must immediately redouble our efforts to raise a generation of children well-educated and mentally endowed with the

Comment: With case counts extremely low and masks optional everywhere else it's time to make them optional at school. The kids need to be kids, to see each other smile, and put all this misery behind them. The time May come when masks have to come back Bc of a new variant or whatever but now let's let them be free. High risk people can and should wear n95 masks which will protect them more than all the kids in surgical masks, let alone cloth masks which unfortunately are almost useless.

Comment: I strongly recommend you listen to the highly-paid Ms. Manwiller's regular update, and to the Superintendent (despite his only second-hand knowledge of negotiations) as you always do, and then actually go and read the fact-finding report that SCTA submitted. Ask yourself why any sane teacher would agree to taking an enormous pay cut and STAYING in this district when other nearby districts are paying bonuses and getting regular raises. Ask yourself if you are doing the best thing for students by threatening their teachers' livelihood and making it impossible to stay when there's already a teacher

shortage and students are already under-served by it. Ask how it will increase equity to worsen a situation where students are already less likely to have a teacher or a sub in
