Indicators monitored by staff as emotional engagement metrics –

- These indicators are fine, but it is not clear who will monitor and follow through and what *IS the follow-up*. It is very likely that teachers will be the only adults that students will have contact with. Thus, teachers need the learning on these processes, including where to refer students.

sample actions shared on pp 43-44 of the Plan, followed by the Professional Learning Opportunities that the District will offer teachers

We recommend the expansion of Parent Teacher Home Visits (PTHV)
– Since this program was first established in SCUSD in collaboration with SCTA, we know it works. However, even with the support of additional resources after LCFF, it has not reached its full potential at the District. We believe this program should be given greater focus. We recommend

that the District and the PTHV program be expanded to all elementary schools.

Thank you for your consideration of our comments. We recognize that the District's Plan is evolving, but also that there is limited time before it must be adopted. We wanted to share our early comments and will likely comment further. We look forward to continuing to partner with you to strengthen the school experience for Sacramento's neediest students and families.

Sincerely,
On Behalf of the Sacramento ACT Local Organizing Committee
