***“The foundational principle of this guidance is that all students must have access to safe and full in-person instruction and to as much instructional time as possible.”***

*“Prolonged school closures are increasing stress-related physical & mental health issues in our children. Children thrive on in-person learning & schools are important settings for buffering the stresses brought on by the COVID-19 pandemic. Our schools have the key tools to reopen safely for students, teachers & staff. Let’s work together to reopen our schools safely so that our children can thrive.”*
