

**SACRAMENTO CITY UNIFIED SCHOOL DISTRICT
BOARD OF EDUCATION**

Agenda Item# 9.2

Meeting Date: October 7, 2021

Subject

The District issued a Request for Proposal on February 15, 2019. After a competitive selection process, DLR Group was selected as the planning team most qualified to perform the work. On June 20, 2019, The Board approved a contract with the DLR Group to prepare the District's 5-year Facilities Master Plan (FMP). The District's FMP is defined as a collection of data that serves as a basis for planning future facility improvements, providing a rationale to the school community and public for the use of capital project funds and facility initiatives. DLR was asked to assess all District sites in the areas of energy, HVAC systems, technology, security, and educational adequacy. These assessments form the basis for the Facilities Condition Index (FCI). DLR was also asked to prepare an equity index and project priority methodology, to help prioritize capital improvement projects.

Over the last two years, the DLR team walked all District sites with Facilities Staff and met with site leadership. The Facilities condition assessments and the energy audits for each site are complete. These assessments have been placed in "School Dude," the District's maintenance software program.

DLR has conducted several meetings with District Leaders and led several workshops with the Core Planning Group (CPG) and the Steering Committee, which concluded in June 2021. DLR has created a web-accessible database showing the potential improvements at each school site, the underlying project costs, and the combined costs for the overall program. An "equity index" and four guiding principles were developed in three workshops with the Core Planning Group, conducted by RSS Consulting. The index includes information about District neighborhoods, student need, and the FCI. The resulting product is a set of three criteria which will be used to prioritize projects.

In August of 2021, five online Community Forums were held to share the progress of the FMP and obtain stakeholder feedback. At the September 8, 2021 Special Board Meeting, staff conducted a FMP workshop and shared stakeholder feedback. The September 8, 2021 FMP workshop provided additional information. The plan shall describe the district's anticipated school facilities needs and priorities. It shall also identify funding sources and timelines for building. The plan shall be reviewed at regular intervals specified within the plan.

The plan shall be based on an assessment of the district's short-term facility needs, considering:

Board of Education Executive Summary

Facilities Support Services

Facilities Master Plan Update

October 7, 2021

1. The District's educational goals
2. Current and projected educational program requirements
3. Student safety and welfare
4. An evaluation of existing buildings and needs for modernization, renovation, and new construction
5. Estimated costs associated with meeting the district's facility needs
6. The community's social, economic, and political characteristics
7. State planning standards and local zoning requirements
8. Current and projected school enrollments for each grade level, based on residential housing growth patterns in accordance with city/county general plans and other demographic factors

III. BUDGET

The Facilities Master Plan will help the District prioritize capital improvement projects.

IV. GOALS, OBJECTIVES, AND MEASURES

To provide safe, environmentally adaptable, modern schools and playfields.

V. MAJOR INITIATIVES

The Facilities Condition Assessment and equity index are complete. The equity index includes demographic data from District neighborhoods and student data from the Local Control and
