

Any student or staff member who tests positive for Covid-19 must stay home and contact their supervisor or principal. Supervisors must report immediately to Health Services at (Covidreport@scusd.edu ) for contact tracing.

Anyone who has symptoms must also remain home and follow the guidance below.

Children with documented non-infectious chronic conditions can return to school when symptoms have significantly improved. A doctor may diagnose an illness other than COVID-19 and provide a note for return to school earlier than 10 days. Children with unmanaged Covid-like symptoms (such as congestion, coughing, runny nose) may be sent home until symptoms have improved. If there are questions about individual cases, contact your school nurse or health services.
