

I.	Introduction	2
II.	Instructions	

The Sacramento City Unified School District ("SCUSD") is seeking statements of qualifications from firms who can provide Expanding Learning Programs at our school sites. Through this RFO process, SCUSD intends to select one or more qualified firms based on criteria outlined in the RFO. Qualified firms will then undergo a second selection process at a school site where selection of firm will be determined by proposals and an interview panel.

Expanded Learning Programs provide an opportunity to merge school reform strategies with community resources. The goal is to support local efforts to improve assistance to students and broaden the base of support for education in a safe, constructive environment. It is the intent of the program legislation to encourage schools and school districts to provide safe and educationally enriching alternatives for children and youth during non-school hours. The program supports high quality before and after school education and enrichment programs.

The SCUSD Expanded Learning Programs involve collaboration among parents, youth, representatives from schools and governmental agencies, such as local law enforcement, and individuals from community-based organizations and the private sector. Programs are created through partnerships between schools and local community resources to provide students with safe, constructive opportunities for academic support and enrichment activities.

Agencies desiring to operate an expanded learning program within SCUSD must link and support the SCUSD mission and overall District goals (see District website). Agencies must have a comprehensive whole child plan that is aligned with *the SCUSD Expanded Learning Services'* focus on student learning and is oriented to continuous improvement. Awards are provided to expand school day learning, to keep youth safe, and to provide students with academic support and enrichment opportunities

The funding provided by SCUSD Expanded Learning Programs is intended to:

- Operate a before or after school program during the regular school year (with the potential for separate contract awards for summer)
- Provide direct service to SCUSD students at the awarded site.
- Support student academic performance, with targeted efforts for students who are low performing/ failing or at high risk of failure as identified through state and local assessments.
- Demonstrate community partnership in delivering programs and services to children and families.
- Improve access to knowledge about health and wellness
- Increase students' participation in visual and performing arts.
- Develop an awareness and appreciation of different cultures.
- Increase opportunities for service learning and community service opportunities.
- Increase college and career awareness and youth entrepreneurial services.
- Provide information, educational resources, and parent engagement for families, and educational programs and activities which enhance youth and adult learning.

Additional requirements of grant recipients include the following:

Grantees are required to maintain 85% of the targeted attendance rate per a single-site.

Grantees must work with the SCUSD Expanded Learning Services to demonstrate that progress has been made toward meeting the program goals as outlined in the service agreement; and collect data that addresses the performance indicators for the programs.

Grantees and the SCUSD Expanded Learning Services will utilize technology to work together, including, but not limited to, SCUSD Infinite Campus Student Information System (SIS), SCUSD Expanded Learning Services website and web-based reporting for attendance.

Grantees will send the program manager/site director/site coordinator to monthly mandatory professional development

Grantees will participate within District-wide initiatives as aligned within the SCUSD vision and mission as well as the Youth Development Support Services Office (i.e. Social Justice Youth Development, Bullying Prevention; Obesity Prevention; Red Ribbon Week, etc.)

Grantees will work with the school community and the SCUSD Expanded Learning Services to create, refine, and modify the site Expanded Learning Program plan.
