The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it.
4. Starting Services/Advance Installation: The annual F Funding Year begins on July

x Category 2

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year. We also amend our rules for category two-recurring services to permit applicants to seek support for category two eligible services purchased for April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these trial networks.

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking [FCC 1499](#) , released July 23, 2014. This FCC decision only applies to Category 2 services (Internal Connections).

6. Invoicing
